This Is How I Coach

35 SURPRISING IDEAS TO HELP YOU BECOME MORE SUCCESSFUL

Date of publication: July 24, 2024

Completely revised and expanded new edition

All rights available except English

The best coaching methods from the renowned author

Sabine Asgodom has completely revised and updated her successful book "This Is How I Coach", enhancing it with even more invaluable coaching insights. With many examples from actual cases from practice, she assists people in developing alternative ways of thinking, recognizing their own strengths, and taking action. She makes it clear that coaching does not involve imposing well-intentioned solutions, but instead to encourage self-responsibility. Her coaching approach, tried and tested over several decades, is supported by research of positive psychology by Professor Martin E. Seligman, who has developed a 5-pillar model of what people need for a happy, successful life: positive emotions, fulfillment, good relationships with other people, a sense of meaning, and performance competence.

In her book, Sabine Asgodom reveals the secrets of her successful coaching work and presents the best exercises from her life and business coaching, including the alternatives wheel, strengths analysis, anger management, and the camel-path strategy. A treasure trove for anyone who wants to progress in both professional and private life, or support others in their search for their own solutions.

The classic on the transitional phases of life by bestselling author Ruediger Dahlke, in an updated and expanded version

Birth, puberty, leaving home, marriage, and midlife crises are all dramatic turning points in life. If we suppress these natural life transitions instead of welcoming them, our lives will be thrown out of rhythm and we will experience these phases as crises. Outer manifestations of this are physical ailments and illness.

In this updated and expanded edition of his classic book, Ruediger Dahlke examines the crucial transitional phases of life and their symptoms and reveals how we can grow through each individual phase of life with the aid of personal rituals. These life transitions represent opportunities to leave the old behind, to dispel with what has been assumed to be safe, and to take the next steps and being open towards the future.

- A guide that provides rituals of transition for natural crises of upheaval
- With helpful suggestions for every stage of life's journey

The Paradise in Me

A MAGICAL LIFE JOURNEY

Date of publication: September 18, 2024

Your one-way ticket to a courageous and self-aware life

Sophie is trapped in the spiral of too much stress and too little enjoyment, with no clue how to escape. Her job is unfulfilling, and she is still dealing with her partner having just broken up with her. Her impulse is to simply escape and travel somewhere, to a dream destination. Then an email arrives inviting her on a magical journey. Her mind is wary of this, but her heart cries out: Go for it! And so begins Sophie's adventurous journey of twelve days and nights through her inner world, with many bizarre encounters, profound realizations, and breathtaking heights and depths.

- Trust in life, allow change, and realize that paradise lies within you
- For fans of Tessa Randau, Sabrina Fleisch, and Karin Kuschik

NEW DIGITAL WAYS FOR A SELF-DESIGNED AND SECURE LIFE IN OLD AGE

Date of publication: October 02, 2024

Growing old well in the digital age

Most people would like to spend the last stage of their lives as independently as possible, preferably at home. However, with aging, many people will require care and a level of support that cannot for various reasons be fulfilled by their environment. A range of additional technical aids can enable a needs-based solution that considers personal requirements and will help ensure comfort, safety, and inclusion. This book provides an entertaining and easy-to-understand overview of the technologies that are available today, what they are already capable of, and what will be possible in the future. It points out the opportunities and limitations of technology and reveals what everyday life with digital assistants, e-health, and robotics can look like. It also includes comprehensive information on what you can do yourself, including how to prepare for any digital and technical challenges so that you can live autonomously and happily in old age.

- The first book on the subject of technical-digital support in old age
- Everyday solutions presented in a clear way

The Questions of Your Life

HOW YOU CAN FIND THE ANSWERS INSIDE YOUR SELF

Date of publication: September 18, 2024

4-colour

"This is a journey to ourselves, and it doesn't matter so much where life's questions are taking us, but who we become along the way." Biyon Kattilathu

Our laughter is in the same language. Similar things make us happy. We all have similar fears and similar desires. We are all looking for answers. And along the way, we ask ourselves the same questions: How can I love myself more? How can I enjoy the moment? How can I learn to set boundaries?

Bestselling author Biyon Kattilathu wonders why we actually ask ourselves these questions, and why we find it unsettling when we can't find answers. Perhaps we are searching for a feeling of stability, balance, or even love in such answers. But it may also be from the fear of knowing we have never really lived. Biyon's intention here is to inspire us, wake us up, and entertain us. He provides fascinating studies and revealing statistics, as well as small life hacks and inspiring rituals that can be easily integrated into everyday life. His answers to the great questions of life are not designed for us to form opinions, but instead to bring us closer to the feeling that the answer lies within us.

LEARNING TO THINK CREATIVELY

Date of publication: November 27, 2024

How to harness your own creative energies and overcome a deficit of ideas – a seven-step guide

Innovative and unexpected ideas are in demand in all areas of life, especially when automated processes are not adequate and extraordinary approaches are required – whether it's remodeling a house, giving a lecture or presentation, recruiting new employees, or making everyday family and work life run more smoothly. The good news is that creative thinking is not an inborn aptitude, rather is something that can be acquired.

The authors, a brain researcher and a journalist who has been working creatively for decades, describes how and under what conditions new ideas arise in the brain and how you can identify which factors are essential for you. By way of many exercises, this book provides practical every-day guidance on how to follow your own individual path to find creative and unconventional solutions to problems and how to train this kind of thinking to stimulate fresh and innovative ideas.

- With many concrete strategies for both professional and private life – creativity techniques, exercises, and tests
- Perfect combination of authors: brain researcher Prof. Dr. Martin Korte provides neuroscience background information; Gaby Miketta shows how this knowledge can be put into practice in everyday life

Trauma and Relationships

HOW WE CAN LIBERATE OURSELVES FROM OLD ATTACHMENT PATTERNS

Date of publication: September 25, 2024

Rights sold to: Slovakia (Tatran)

How early experiences shape our relationships

Early attachment experiences and emotional traumas from childhood can have long-term effects on our nervous system, including recurrent conflicts and feelings of profound loneliness and self-alienation. What many people don't realize is that certain relationship issues, such as attachment anxiety or a tendency to form toxic relationships, are often the consequences of these traumas.

The noted trauma therapist Verena König draws on the findings of epigenetics and polyvagal theory to describe how traumas arise and how we can recognize them. She presents a range of self-regulation exercises that can help us counter their consequences in order to promote recovery. Using these methods, we will finally be able to lead a life free from the shadows of the past and form fulfilling relationships – be it with our body, our fellow human beings, the planet Earth, or even our symptoms and our past history.

- With many case studies as well as effective and proven self-help impulses for our relationship with ourselves, in love, in friendship, or at work
- A gentle, competent, and easy-to-understand approach to this major trigger topic
- For readers of Stefanie Stahl, Bessel van der Kolk, and Peter Levine

A Dog Named Ego and the Great Questions of Life

A STORY OF TRUE FRIENDSHIP, INNER RICHES, AND THE SEARCH FOR HAPPINESS

Date of publication: October 23, 2024

illustrated throughout

Searching for and finding inner peace

"It is said that at the moment of death, our whole life flashes by us," said Ego. "I've heard that too," replied Marc. "It's just that my life has been passing me by for fifty years."

Successful entrepreneur Marc Lambert is frequently having conversations with his dog. Ego the King Poodle is a very exceptional four-legged friend. Ego has been by Marc's side for as long as he can remember. He knows all the highs and lows of Marc's life and so is the perfect advisor. Now that Marc is approaching sixty, he is confronted with the larger questions in life. Ego helps him find some answers and reorient his life from the pursuit of external wealth to inner peace. Sometimes on gentle paws, sometimes with a big snout – but always with plenty of patience for the contrariness of those people who don't want to understand that the matter of happiness is quite simple.

- Dogs are not only man's best friend; when things are uncertain they are also better at being human
- The fabulous gift for people in midlife: learning from Ego the Dog means learning to live

Martin Limbeck

Martin Limbeck had as his motto 'always higher, faster, farther.' By his mid-twenties, had everything that others could only dream of all their lives. But this was not enough for him. What followed was an unprecedented career: entrepreneur, bestselling author, millionaire. What he realized over the years was that money can open many doors for you and allow your family to live a comfortable life. Yet though you can fulfill many material desires, that alone will not make you happy if you are not at peace with yourself. This is why he no longer focuses only on his profession, but on his avocation as well. As an entrepreneur, he is a strong advocate for SMEs (small and medium-sized enterprises) and, as an ambassador for Kinderlachen e.V., supports the needs of ill and disadvantaged children in Germany.

The story prompts you to reflect on your own life, and offers valuable suggestions for how you can grow, without ever being didactic. Inspirational!

Mental snacks to counter the daily madness

When the body is become exhausted, we know how to help it: a handful of nuts, a cup of coffee, and we're back to our usual state of being. There are comparable solutions for the psyche, but we are simply not aware of them. Positive guiding principles and beliefs provide a mixture of psychological and philosophical food for thought when we find ourselves at a loss or when the world doesn't want to be the way we want it to be. In such moments, a coach is not what we need. A certain few words will suffice to bolster us, calm us down, and get us on the right track. This is not some kind of magic. We know from the psychology of language that words influence our perception and behavior. Positive, memorable sentences have an effect on the brain like a drug – only much more quickly. Here are 25 mental snacks gathered by Doris Martin. Most of them might seem as fluffy as popcorn – but they pack a punch.

The New Fasting Code

HOW COLON CLEANSING WEAKENS THE MICROBIOME, AND HOW COFFEE SUPPORTS CELL RENEWAL

Date of publication: December 18, 2024

ca. 40 colour photographs

Fasting 2.0

Fasting concepts such as the Schroth cure, Buchinger fasting, and FX Mayr, though still quite popular, have become outdated in the light of current nutritional and physiological research. However, fasting in itself is still something that promotes health and is in harmony with the times, whether as calorie reduction, intermittent fasting, or classic fasting with little or no food intake. Fasting cures should be aligned with the latest findings and techniques to increase their effectiveness. These include not cleansing the intestines before or during fasting, strengthening the intestinal microbiome, stimulating autophagy processes, and increasing fiber and oils.

The bestselling author has developed a completely new fasting concept based on current research. Included are many highly significant findings, valuable background information, and daily plans.

- Totally new approach: fasting without colon cleansing, but with coffee instead
- The revolutionary fasting book by the bestselling author, with over 300,000 books sold

Foods that are truly nourishing

Food is much more than just a source of calories. It supplies the body with energy, provides taste and pleasure, helps prevent and cure illness, and is a shared, at times ritualistic, experience. However, with the rise of fast food and convenience products, our food has become one-dimensional and increasingly poor in nutrients, contributing to such diet-related illnesses as arthritis, obesity, and allergies.

Making use of current research findings and insights from spiritual traditions, the psychiatrist and nutrition expert Gregor Hasler explains how we can revitalize our diet and restore its healing properties based on current research findings and insights from spiritual traditions. The good news is that the body can be restored to a state of well-being by taking just a few measures. For example, attentive eating slows the rate of increase in blood sugar. Intermittent fasting not only regulates weight but improves concentration as well. Gregor Hasler motivates us to select our food wisely and to eat in a healthy way.

Conscious, healthy and energized through menopause – the possibilities of this phase of life for body, soul, and relationships

Physical symptoms are only one aspect of menopause. Much less well known and far less researched are the psychological effects that can be associated with menopause. Most women go through a mental transformation during the five to ten years of this period of life. Who am I (still) as a woman when the drop in female sex hormones is accompanied not only by the loss of my fertility, but also the loss of my 'typical' female self-image? What can be done, preventively, to combat any feelings of insecurity and shame? How can women grow personally during the menopause and emerge from it strengthened and resilient?

The author shows how to cultivate a fresh mindset in order to see the physical and emotional changes as an opportunity for a new start or for rediscovering yourself. In a sensitive and accessible way, readers learn what they can do for their mental health and their physical and psychological well-being in order to come through this challenging phase of life healthy, full of vitality, self-confident, and beautiful.

HOW THE PSYCHE AND A GOOD NIGHT'S SLEEP ARE ASSOCIATED

99 QUESTIONS ANSWERED BY A RENOWNED SLEEP EXPERT

Date of publication: August 28, 2024

Is your mind exhausted as well as your body?

For many of us, our sleep at night is in a poor condition. Sleep expert Prof. Dr. Kneginja Richter assures us that we can remedy any sleep disorder if we address it holistically. In 99 entertaining chapters, she unveils the mysteries of sleep and provides profound insights into the interplay between sleep, the psyche, and the body. She describes how to find the causes of poor sleep and how to create optimal conditions for sound sleep even in stressful times. Using the latest findings from sleep research, she also explains why sleep is so fundamentally important for our mental balance, just as mental balance is for sleep. She sheds light on such aspects as the diagnosis of psychosomatic causes and the effectiveness of sleep therapy and sleep aids. Along with extensive information, readers are helped to once again experience healthy sleep and a balanced psyche based on their individual needs.

The first Strunz for the soul

In Germany alone, over 6 million people suffer from depression and more than 3 million from burnout. Because the physical causes of depression and burnout are usually not taken into account, medication and psychotherapy are often of little help. In both conditions, bodily processes undergo unhealthy changes, the triggers for which are manifold, including chronic inflammatory reactions, thyroid disorders, reactivated viruses, and disrupted metabolic processes. This is often accompanied by psychological stress, which measurably alters hormone levels and epigenetic switches.

Bestselling author Dr. Ulrich Strunz has used the latest scientific findings to explain which physical causes are responsible for depression and burnout and how we can take preventative and remedial action. With the right diet, regular exercise, focused relaxation and adequate sleep, our self-healing powers can be effectively reactivated.

With clear facts, practical tips, and self-checks – Dr. Strunz motivates you to lead a healthy lifestyle full of joy.

The Suffering of Abandoned Parents

UNDERSTANDING LOSS OF CONTACT AS AN EMOTIONAL INHERITANCE AND DISCOVERING WHAT TO DO ABOUT IT

Date of publication: November 06, 2024

How estrangement arises from intergenerational wounds

When an adult child ceases contact with his or her parents or breaks away from the family completely, it is a disaster for the parents. They are in a state of disbelief; they try to understand what has happened, but can't. Being abandoned leaves them feeling ashamed, guilty, and they may attempt to rationalize, to justify themselves.

Claudia Haarmann looks deeply into family histories and social circumstances in order to shed light on the causes of adult child-parent estrangement, a phenomenon that is increasing worldwide. Her view is that the abandonment is the result of transgenerational injury and attachment issues. She explores this situation from the perspective of abandoned parents, seeking to provide them with understanding and support. By using case histories and interviews with experts to explain and sensitively convey the social aspects and the influence of attachment issues of the parental generations in family conflicts, she creates opportunities for reflection on one's own history and family dynamics while opening up new perspectives on this situation.

- Long-selling topic of estrangement and abandonment – for the first time, now taking the parental generations into account
- Informative and helpful life help

EVERYTHING A CHILD NEEDS TO LEARN TO TALK
SPEECH DEVELOPMENT FROM 0 TO 5 YEARS

Date of publication: October 23, 2024

2-colour throughout

Supporting children's language development lovingly through playfulness and enjoyment

Should I talk to my child in the womb? How many words are considered normal in the first year of life? What should I be aware of when my child grows up with two languages? For many parents, the topics of language development and support are receiving more and more attention – particularly when things don't go according to expectations.

The professional pediatric speech therapist Carina Kittelberger is familiar with all the questions, concerns, and needs and has been supporting parents for many years in playfully stimulating and facilitating children's language development. In an easy-to-follow and practice-based way, she describes how language develops, what the best conditions are for language acquisition, and where problems might arise. She emphasizes the importance of play in learning language and dispels the many misconceptions concerning language development. Parents are provided valuable orientation about the crucial milestones during the first six years of life, as well as guidance and support on how to identify delays in language development at an early stage and to take effective countermeasures.

Sibling Love and Strife

FROM ARGUMENTS AND CONFRONTATIONS TO RECONCILIATION

Date of publication: September 11, 2024

Those who love one another annoy one another – the book for anyone who has siblings

Sibling relationships are the most enduring – and often the most complex – relationships in our lives. Even in supposedly untroubled family histories, there are smaller and larger traumas, unvoiced injuries, and sometimes bitter feelings of disappointment that run deeper than we would like to admit. The problem is that the older we and our siblings get, the stronger the roles and behavioral patterns formed during the short time we grew up together manifest themselves – yet these no longer need to have any relevance for the present. In the formative years of our childhood and adolescence, we have not yet fully developed adult personalities. We change over the course of our lives. Everyone goes their own route, taking their own wounds with them, like smoldering fires beneath the surface. And when parents die, the wounds open up and it is not uncommon for open conflict to break out. But that doesn't have to be the case.

In her new book, journalist and bestselling author Ursula Ott examines the many varieties of 'sibling love', allows experts to explain and affected siblings to tell their stories, and reveals the ways in which it is possible to overcome even the messiest situations and start a new, better chapter in the sibling relationships.

· With practical advice, tips, and guidance on how negatively complicated sibling relationships can be mended

Settling in without tears – secure attachment, needs-oriented, strong relationships

Daycare marks the start of the journey for many parents into the world of childcare outside the family. This poses a whole new set of challenges for families. How to find the best day-care facilities? How does the settling-in process happen? How can I make the transition as pleasant as possible for all of us?

Stefanie von Brück, an experienced parenting coach and expert in the settling-in process with children, has dedicated herself to providing parents with as much knowledge as possible to ensure that settling in is smooth and without tearful drama. She has already been able to help hundreds of families dispel their worries about the child's first step out of the nuclear family and make a positive start to the daycare years. Whether it's selecting the right facility, getting through the settling-in period, or making sure your child is happy for the long term, this comprehensive guide provides parents with useful information, tips, and checklists so that there are no obstacles on the way into the daycare adventure.

THE BEST STRATEGIES FOR THE EVERYDAY FAMILY LIFE OF PATCHWORK PARENTS

Date of publication: November 13, 2024

2-colour throughout

What researchers now know about the world of patchwork – and what advice parents really want

Welcome to the patchwork family, the tumultuous reality of living with children who are not your own! This situation involves fulfilling roles you aren't prepared for, investing large amounts of time and attention in various kinds of relationships, and searching for answers to questions that biological parents would never need to ask themselves. But what it doesn't mean is that you are alone in such a situation. The author helps people who are in the same situation to think objectively about their own attitudes, realistically evaluate their needs and expectations, and develop solutions to the most prevalent problems in everyday family life. Her book is a support for all patchwork parents to begin creating a harmonious and stable new family structure!

- Best practice meets up with current research and case studies
- Practical help for many challenging years to come

WHAT TEENAGERS REALLY NEED
 NEEDS ORIENTATION THROUGH PUBERTY

Date of publication: September 25, 2024

Guiding teenagers through puberty with sensitivity and composure

What happens when the children grow up? What are the changing requirements of teenagers and how can parents address them?

The devoted family therapist and resilience trainer Romy Winter has already helped several thousand families achieve a family life filled with strength and connection. In her new book, she accompanies parents through the eventful phase between childhood and adolescence. She takes a needs-based approach, but one that goes beyond babyhood and toddlerhood. Using the latest findings from developmental psychology, she explains what needs young people have and how the role of parents changes over the course of puberty. Teenagers themselves have their say in this book, providing fascinating insights into their perspectives on topics such as autonomy, self-esteem, physical changes, friendships, and media and drug use.

A unique and sensitive guide for navigating this turbulent and emotional time

Alone With Their Phones: How to Protect Your Kids

GROUP CHATS, BULLYING, PORN, VIOLENT CLIPS – THE TRUTH ABOUT WHAT CHILDREN EXPERIENCE ONLINE

Date of publication: October 16, 2024

‘I saw a video on YouTube last night where a mother cuts the heads off her three children and sticks them on spikes. My little brother watched it too’ (A nine-year-old primary school pupil)

What kids experience on their smartphones is hard to stomach: brutal violence, horrific racism, grooming, sexting, gambling and extortion via seemingly harmless online games – sometimes with catastrophic consequences. But most of them never tell their parents, who still massively underestimate the effect digital media has on children.

A whole generation of primary school kids are already using smartphones, given to them by their parents without any adequate preparation. Even the parents themselves often don’t understand the effect this will have, and how important it is to keep a close eye on their kids’ phone use, at least at the start. Wolff, an expert on digital tech who teaches at schools all over the country, knows exactly what kids go through online – and in "Alone With Their Phones" shows us how we can protect them, while also helping them take advantage of the immense opportunities offered by the digital world.

Hidden Narcissism in Relationships – The Workbook

10 STEPS OUT OF THE TOXIC PARTNERSHIP

Date of publication: November 06, 2024

The only practical book on the topic of hidden narcissism in relationships

In her book "Hidden Narcissism in Relationships", psychologist Turid Müller exposed the behavioral patterns of toxic partnerships and charted the path to recovery from emotional abuse. But theoretical understanding alone is not enough to alter attitudes and behavior. This practical handbook with its specific solutions is intended to help people help themselves escape from abusive relationships. Ten typical reasons for staying in a relationship are examined, and each of these is then turned precisely into reasons for leaving. Applying these one by one to our own relationship and through empathetic ideas, guidance on self-observation, paper-and-pencil exercises, motivational impulses, body journeys, and varied creativity techniques, we will find clarity and take action.

Tidy up better – love more easily

Clutter and disorder is a major source of conflict in many relationships. When couples acknowledge this and address the underlying issues, they not only end up with a clean and tidy apartment or house, but also get to the bottom of possible problems in the relationship.

Using concrete case studies from their joint practice, the professional decluttering coaches Johanna Lemke and Sabrina Rox – known as ‘Hempel’s sisters’ – examine common problem situations and offer some pragmatic solutions, for example how a couple can achieve order and tidiness and at the same time do something for the relationship. The authors provide more than merely practical tidying tips; they also shed light on the emotional aspects and invite people to consider their relationship, thus enabling them to grow individually and together as a couple. Creating order is always both an external and an internal process. While we are reorganizing our home, we are also reorganizing our soul. By tidying up, you come into contact with issues that you had in fact literally filed away.

- The first book on tidying up your home and your relationship
- Practical life advice presented in a relaxed, clear, and easy way

A STORY ABOUT LIVING IN THE HERE AND NOW

Date of publication: August 28, 2024

4-colour throughout, numerous illustrations

“Just where am I in my thoughts? And is this where my life is right now?”

Tom and his old friend Paul are spending a few days by the sea. Paul soon notices that Tom's thoughts are somewhere else entirely, sometimes about work, sometimes about his not-so-easy relationship. He is continually distracted by trivial things, and very far from being able to enjoy the present moment. Plagued by inner turmoil, he feels he is never really in life. Something is wrong. Paul tells him the story about two fishermen in pursuit of the perfect catch. Gradually, Tom begins to understand how much the constant demands of everyday life are preventing him from living in the present moment. But how can he stop the mental whirlwind of old injuries, worries, and anxiety about what may come? With clarity and empathy, Paul uses a circle, two bottles, and three stones to symbolize what it takes to live a fulfilled life – and above all, how Tom can experience this even when his time by the sea is over.

Life without Anxiety

WHAT WE ARE AFRAID OF, AND WHY – AND HOW WE CAN EMPOWER OURSELVES PHYSICALLY AND MENTALLY TO RECOVER JOY AND QUALITY OF LIFE

Date of publication: September 11, 2024

How to find inner strength and confidence in difficult times

In recent times, few things have united us as strongly as anxiety. Whether it's about the state of the world or our country, wars, inflation, our jobs, the pressure to perform at work, the well-being of our families or our health – uncertainty and anxiety are becoming more prevalent, and our zest for life is fading.

Prof. Dr. Dietrich Grönemeyer explains how the basic feeling of fear is literally in our genes and just how this affects us – socially, professionally, and in our private lives. It is difficult to escape this collective anxiety. But we can learn to deal with our fears, use them productively, and overcome them, and thus regain control of our behavior. In spite of everything, we can apply individual stress-relief strategies and actively take the necessary steps to recover what allows us to live well: confidence, self-efficacy, and the pure joy of life.

Face Your Fears

HOW TO OVERCOME FEAR AND SELF-DOUBT – SURPRISING INSIGHTS INTO THE PSYCHOLOGY OF FEAR, BY THE SLACKLINE WORLD RECORD HOLDER

Date of publication: August 28, 2024

With insert

Stop being afraid of your own courage

Many of us are trapped in a job we're good at but don't enjoy. Our lack of enthusiasm gets us down. We dream of making a radical change, but are afraid to take the first step.

Lukas Irmmler, a slackline world record holder several times over, knows what it's like to have a seemingly unattainable goal in your sights, with the path to it a line that's just a few centimetres wide and several kilometres long. It's a long way down into the abyss.

In the richly illustrated "Face Your Fears", Irmmler tells the story of his first steps and missteps in this extreme sport; of how he overcame fear – and how success gave him wings; of the sudden clarity that led him to a new job, as well as a vocation. His motto is: if you do what you love, you can't help but be good at it. Even if the first step is scary.

Lukas Irmmler, born in 1988, studied chemistry and business, but the tax man knows him as a freelance professional sportsman. At the age of 18, he discovered a passion for slacklining, and since then he has travelled all over the world, spending time in more than 30 countries and setting all kinds of records. His highline crossing of the Victoria Falls in Zimbabwe made the TV news in more than 200 countries and was greeted with amazement around the world. He has five official Guinness world records and has been named sports personality of the year several times. He is famous not only for his sporting achievements, but also for his multimedia talks about his travels, his love of heights and his search for balance.

ANNA SUCHANECK

You're OK – Even When You Are Living with an Anxiety Disorder or Depression

50 WAYS TO HELP WHEN YOU'RE NOT FEELING WELL PSYCHOLOGICALLY

Date of publication: November 13, 2024

4-colour design with small sketches and illustrations

Let's talk about the psyche!

Anna Suchaneck has been affected by anxiety disorders and panic attacks since her youth, but it took her a long time to be able to openly confront them. Today, she readily acknowledges this condition and shares her experiences cheerfully and empathetically on her Instagram channel. Anna regards herself as a mental health activist and thus provides a valuable forum for many sufferers.

In her accessible style, she dispels preconceptions, shares encouraging experiences, explains lesser-known facts in straightforward terms, and raises general awareness. A refreshing educational book that provides immediate support on the topic of mental illnesses.

- An emergency kit for severe emotional situations, in an accessible question-and-answer format
- For beginners on the subject of mental health and mental illness – with encouraging ideas, everyday tips, and easy-to-understand facts

Gluten-free indulgence without any digestion issues or compromising on taste

Katharina Böttger and Rena Wiese, founders of the 'echt jetzt' brand, know quite a bit about gluten-free baking. Since 2019 they have been producing the finest gluten-free baked goods throughout Germany for people with coeliac disease and gluten intolerance, or for those simply interested in a gluten-free diet. The guiding principle of their business and of this book: high-quality ingredients with no additives, good nutritional values and, of course, fantastic taste. Here are simple, step-by-step instructions for crispy breads, pretzels, and pizza, heavenly apple and chocolate cakes, delicious cinnamon buns, cookies and more that taste great and are still all gluten-free. In addition, many recipes offer alternatives for a vegan, sugar-reduced or yeast-free diet, so there's something for everyone.

· Coeliac disease, gluten intolerance, gluten sensitivity – for anyone searching for a gluten-free diet

Healing the skin from the inside with 111 delicious recipes

Anyone affected by neurodermatitis, psoriasis, rosacea, or acne often suffers in two ways – one from the unpleasant symptoms, and another when looking in the mirror. But there is a way to return to beautiful and healthy skin: the skin diet. Felix Dahlmann was himself afflicted with psoriasis. He has since developed a highly effective strategy that can be used to treat and even cure a wide range of skin problems naturally, from the inside out, without cortisone ointments or other skin care preparations. The core of his method is an alkaline-forming diet and the intake of specific nutrients through algae shakes and superfoods:

- Fluids such as lemon water, teas, and cold-pressed juices hydrate the body in a healthy way.
- Superfoods such as wheat grass and chlorella provide the cells the essential micronutrients.
- Various measures stimulate and support the detoxification organs of the body: liver, intestines, kidneys, lymphatic system, skin, and lungs.

Even skin diseases classified as 'incurable' by conventional medicine can be lastingly overcome. Here are 111 delicious and easy-to-prepare recipes that have been specifically developed to heal the skin from the inside.
